## DIRECTOR'S MESSAGE

You are a valued member of the conservation community!

Once again, on the eve of the Nevada big game tag draw, I find myself writing the Director's message for the 2019 Big Game Hunting Guide. I haven't drawn a big game tag for a couple years so I'm living vicariously through friends and family who have drawn tags.

I am filled with what I affectionately call "pre-draw optimism." As I write this message, the draw has not yet taken place, but I feel lucky this year. Truth be told, despite the lack of success to warrant it, I feel lucky every year. For the last couple years, my pre-draw optimism was rudely replaced by a bad case of the post-draw blues after learning I was unsuccessful in drawing a tag. Regardless of whether I draw a tag, I remain a proud, license-carrying member of the conservation community.

Chances are if you are reading this publication, you, a friend, or family member drew a tag. Some of you may hunt alone or in a small group. Although you may not consider yourself a member of a community, especially if you personally didn't draw a tag, you are. Each man, woman, and child who applies to hunt big game in Nevada, whether a Nevada resident or not, is part of our conservation community.

Our community also includes members who don't apply for tags or buy a hunting or fishing license. This community extends to our friends and family who support wildlife through their actions. Our conservation community is deeply committed to and passionate about the conservation of wildlife. I am truly grateful to be part of this community and for the efforts and contributions of its members.

A community is defined as, "a feeling of fellowship with others, as a result of sharing common attitudes, interests, and goals." Not everyone in a community shares identical attitudes, interests, and goals; communities are diverse. It is the contributions of this diverse group of members which determines the success of the community as a whole. Some contribute through involvement with wildlife conservation organizations, while others volunteer on wildlife habitat projects or volunteer to teach hunter education classes. I know of no other community that universally contains the level of interest, enthusiasm, and dedication that exists within the conservation community. Members of the conservation community are determined to leave it better than when they found it. That mentality, "better than when we found it," defines the conservation community.

If you're a hunter, I hope that by the time you are reading this message both you and I will have learned that we each drew a Nevada big game tag. If we don't draw a tag, I hope you will find solace in knowing that despite not drawing a tag, you are still part of a pretty special group filled with some of the most passionate and dedicated members found anywhere.

Thank you very much for being such a valued community member, best of luck on your outdoor adventures, and no matter what, always endeavor to leave it better than you found it.

Sincerely,

**Tony Wasley**

# SHOOTERS & HUNTERS: HELP PREVENT WILDFIRES.

**T**he target shooting and hunting community prides itself on being safe and responsible with firearms in all situations—from using them outdoors to storing them safely at home. Sometimes, however, unusual conditions such as extremely dry environments require an extra level of awareness and safety on the part of shooters.

Wildfires have many possible causes. The National Shooting Sports Foundation, the trade association for the firearms and ammunition industry, reminds all shooters that during dry and hot weather conditions their use of certain ammunition and targets could accidentally ignite a wildfire. NSSF reminds all target shooters and hunters, as well as other outdoor enthusiasts, to consider the potential consequences of their activities in fire-prone environments.

- **Make it a point to know the regulations and rules related to shooting in areas experiencing dry and hot conditions, whether on public or private land or at shooting ranges. Many national forests, for example, do not allow recreational shooting when fire restrictions are in effect.**
- **Consider the type of ammunition and targets you are using. Minimize the risk of fires by not using steel-jacketed ammunition, ammunition with steel-core components, tracer rounds or exploding targets in fire-prone areas.**
- **Remember that equipment, such as cars and ATVs, can have extremely hot exhaust systems that could ignite dry vegetation, so park only in designated areas.**
- **Extinguish and dispose of smoking materials safely.**
- **Follow guidelines to extinguish campfires.**
- **Warn others of potential dangers and behaviors for starting wildfires.**
- **Report any wildfire you see to authorities.**
- **Spread this message to other target shooters, hunters and outdoor enthusiasts.**

## LIMITS AND HOURS

The limit is one animal per tag and the hunting hours are one-half hour before sunrise to one-half hour after sunset for all big game hunts, unless otherwise specified. New hunts, dates or units added to a hunt in 2019 are marked in ***bold italics***.

**PLEASE NOTE:** Additional access may be available through private lands. Please visit the "Incentive and Compensation Maps" page on the NDOW website ([ndow.org](http://ndow.org)) for more information.

## HELICOPTER OVERFLIGHTS AND YOUR HUNT

Helicopter surveys may be conducted during hunting seasons. The monitoring flights are timed to occur during the most effective months of the year to check on important parameters including ratio of bucks to does, ram recruitment or calf production. While we try to avoid surveys during open hunting seasons, sometimes it cannot be avoided. We apologize for any disturbance this may cause and will try to limit this activity during your hunt.

## ELIGIBILITY

## Applying for Elk

Applicants can apply for both antlered and antlerless elk in the same draw period. A person can apply for multiple antlerless elk hunts in the same draw but only draw one antlerless elk tag.

## Spike Bull

An applicant is able to apply for both antlered elk and spike elk. However, they will only be able to draw one of the tags. Be advised that once a tag is drawn the other application becomes unsuccessful. There is the possibility an applicant could draw the spike tag instead of an antlered elk tag.

## JUNIOR MULE DEER HUNTS

## ANTLERED OR ANTLERLESS

Junior youth tag holders can harvest an antlered or antlerless deer. This tag allows the junior hunter to hunt during the archery season when the unit is open for archery only; to hunt with a muzzleloader when the unit is open for muzzleloader only; and to hunt with any legal weapon when the unit is open for any legal weapon. If a junior hunt applicant is unsuccessful in drawing a tag, bonus points will be awarded for the junior hunt.

**Note:** Any bonus points accrued in the junior hunt will automatically transfer to the antlered deer category at the time the junior hunter becomes ineligible for the junior hunt by either age, or after 5 years of application for the junior hunt.

Junior youth must be 12 years old prior to the opening of each hunt choice applied for (usually Archery), and will not attain their 18th birthday until after the last day of the last season applied for (usually Any Legal Weapon). An eligible junior hunter may apply no more than 5 times.

### 8<sup>th</sup> Annual Wounded Hero Hunt

The Nevada Outfitters and Guides Association (NOGA) provided a U.S. military person with a free elk tag and guided week-long Nevada hunting trip during the 2018 fall hunting season.

Last Year's Wounded Hero:

Leon Reginatto  
Last year's wounded hero was Leon Reginatto, Vietnam veteran from Dyer, Nevada. Upon graduating from Santa Barbara high school in 1964 he attended Santa Barbara City College for 1 year. He then enlisted in the army at the age of 19 and attended Fort Bliss boot camp. In 1966 he was stationed in Germany for 1 year. He returned then and was given orders to Vietnam and assigned to Headquarters Company 2nd Battalion, 34th Armored, 25th Infantry Division where he became part of the RECON. In December of 1967 he was on patrol and they got ambushed by North Vietnamese Regulars in the middle of the day. Reginatto was typically a gunner/crewman but on this day he was driving the armored personnel carrier out in the lead of 48 tanks. The personnel carrier was hit by a rocket propelled grenade (RPG) on the right side where shrapnel hit him in the back and the head. The personnel carrier was severely damaged and not many survived. A medivac unit landed quickly and transported him to the 249th General Hospital in Japan. Later he was moved to Letterman Army Hospital where he spent 5 months. He received his purple heart in April of 1968.

## PLEASE DO YOUR PART TO HELP KEEP NEVADA FREE OF CHRONIC WASTING DISEASE.

It is now illegal (2019 SB85) to bring a big game carcass into Nevada from another state unless it's been cleaned and is completely free of the spinal column and brain tissue. Acceptable to transport: Meat, quarters with leg bones, skullcapped antlers and horns, capes and skins, taxidermy mounts, teeth. Intact skulls are allowed only if they've been boiled, beetle-stripped, or otherwise completely cleaned of brain tissue.

Heads for testing will be accepted at regional NDOW offices and you may request that your taxidermist save the head from your mount for CWD testing.

## NEVADA OUTFITTERS AND GUIDES ASSOCIATION

While there are many good guides, outfitters and hunting professionals out there, hunting with an active member of a state or national professional hunting association can go a long way to insuring an enjoyable hunting experience.

### WHY?

**Legal** – By hunting with an association member, hunters are assured of hunting with a properly licensed and registered guide or outfitter.

**Ethical** – Members of SCI affiliated professional hunting associations are bound by a Code of Conduct based upon local laws, regulations and customs.

**Qualified** – Many associations have stringent requirements for membership, more stringent than simple licensing and registration.

**Experienced** – Active association members tend to have more time in the professional hunting industry, often years of hunting familiar areas or concessions.

**Knowledgeable** – Through their associations, members can more easily stay current on local and national laws and requirements.

**Responsible** – Not only do association members tend to run more reputable operations, they are often more deeply involved in good stewardship of the resources.

**Accountable** – Professional hunting associations police their own, holding their members accountable for professional and ethical behavior. Protect yourself.

**Stewardship** – Members of professional hunting associations are responsible stewards of both the resource and the habitat insuring hunting today....and tomorrow.

## ATTENTION: MOUNTAIN LION HUNTERS

The Nevada Department of Wildlife is requesting that hunters allow for the removal and retention of one premolar tooth from each harvested mountain lion when presenting the skull and hide to NDOW for sealing. Please present the skull, unfrozen, or with the mouth fixed open. The premolar tooth will be used to accurately age harvested mountain lions. NDOW is also asking that a one-inch-square piece of tongue, or other muscle tissue from each lion to be turned in at the same time for future DNA testing.

Teeth and skulls can be presented at any NDOW regional office. Please call first to confirm biologist availability.

## PLEASE DO YOUR PART TO HELP KEEP NEVADA FREE OF CHRONIC WASTING DISEASE.

It is now illegal to bring a big game carcass into Nevada from another state unless it's been cleaned and is completely free of the spinal column and brain tissue.

Acceptable to transport: Meat, quarters with leg bones, skull-capped antlers and horns, capes and skins, taxidermy mounts, teeth. Intact skulls are allowed only if they've been boiled, beetle-stripped, or otherwise completely cleaned of brain tissue. Please reference 2019 Senate Bill 85.

# HUNTERS MUST RESPECT PRIVATE PROPERTY

Every year the Nevada Department of Wildlife (NDOW) receives reports of hunters trespassing, damaging private property and even releasing livestock from fences. Nevada is more than eighty percent public land, almost all of it open to hunting, but some sportsmen still mistakenly enter private property and should be more careful about trespassing.

"Most sportsmen are ethical and respect private property, but when we receive reports of trespassing or private property damage we take them seriously," said Tyler Turnipseed, chief game warden for NDOW.

"We find that nearly all of these problems can be avoided if people use a little common sense while hunting or recreating outdoors."

The Nevada Department of Wildlife wants to remind everyone that hunting on someone else's land is a privilege, not a right. Remember common courtesy can go a long way toward establishing good hunter-landowner relations in the future. Refer to NRS 207.200 for more information.

## TIPS TO USE WHEN HUNTING ON PRIVATE PROPERTY:

- Access to and across private lands is a privilege granted by the landowner. Not all roads are public roads. Traveling on private roads without permission to access other lands is akin to someone walking through your house to reach a neighbor's home.
- Bring a good map showing private and public land ownership. Know where you are. Internet map sources may not be very accurate and there may be no cell service in rural areas.
- Build good relationships with land owners by asking permission.
- Leave gates the way you find them and make sure everyone in your party knows that. If a rancher wants a gate left open, it will be hung back on the fence, not lying on the ground.
- Leave the land better than you find it – pick up all trash you find and take it with you.
- Camp away from water sources for the benefit of wildlife and livestock.
- Report hunter misconduct. Misbehaving hunters jeopardize the use of resources for all hunters.
- Stay on existing roads.
- When granted access, bring only the number of hunters expected by your host.
- Respect locked gates, no trespassing signs and orange-painted gate posts. They all mean stay out.
- Do not attempt to remove or relocate livestock or wildlife.

# NEW TO HUNTING? MY EXPERIENCE MIGHT HELP YOU WITH YOURS.

By Elizabeth Kenna, Nevada Department of Wildlife Public Information Officer

**It is never too late to begin hunting!** My journey begins as a fifth generation Oregonian. I grew up fishing for sturgeon that outweighed me and salmon that without the help of my dad, would have dragged me through the river. When I moved to Nevada at age 22 I went from fishing and small game hunting to jaw dropping Nevada big game hunting. If someone ever tells you that Nevada is just dirt and sagebrush, they couldn't be more wrong. Every hunting experience is different, but one hunt stands out in my mind. Last season I drew my antlered elk tag. A tag that ultimately taught me much more than how to hunt.

It gets overlooked, but to me one of the first stresses in hunting is deciding how to apply. My thoughts usually include "Do I have the time? Do I have the money? Do I have the help?" Sometimes if the answer is "no," I opt to purchase bonus points until I'm ready to hunt that specific species. In the meantime, I apply for hunts that fit my lifestyle that year.

The antlered elk tag is a perfect example of this strategy. Before applying for the tag, I met up with a friend who is a Nevada born hunter. He suggested areas he had elk hunted before. He also committed to helping me should I draw the tag. In 2018 I drew my fifth-choice hunt unit with five

points. Prior to this hunt, I'd drawn both mule deer and antelope tags. I had successful and of course, un-successful hunts.

---

**By this time, I felt confident in my ability to shoot a rifle, as well as my ability to wake up before the sun and crawl out of a frozen sleeping bag.**

---

In preparation for the hunt I assembled a group of friends ranging in hunting experience but identical in enthusiasm for the hunt. We met a few times prior to the hunt to discuss logistics, circle potential camping/glassing locations on maps, and have a communication plan in place. This was key as we knew there would be a lot of variables in the process.

In addition to meeting to discuss logistics, scouting was also high on my priority list.

---

**Scouting allowed me the chance to get familiar with the hunt unit, scope out camping locations, and glass for elk, which in turn built my confidence.**

---

Once a plan was in place, I began getting food and gear packed. I brought enough food and drink to last myself, and the group a full week without re-stocking. I made sure to prepare protein rich foods that were simple to re-heat at camp or carry along all day in a pack. I also prepared myself for inclement weather. I'm not one to spend a ton of money on the latest and greatest hunting products, but I knew it was important to stay warm, dry and safe.

The time finally came to go hunting! We arrived in northeastern Nevada and set up camp two days before opening day. By giving us a little extra time, we were able to re-locate our camp when prospects for elk looked limited in our original location. Following the relocating day, we scouted again for elk and spotted a mixed herd of cows, spikes, and bulls. With a humble heart and an indescribable feeling of gratitude, I harvested my first Rocky Mountain Bull Elk.

---

**Nevada has so much to offer in hunting and fishing opportunities.**

---

Whether you're a resident or nonresident, I strongly encourage you to explore this state and take advantage of our massive amounts of public lands.

## SCOUTING

Time you'll need to take scouting before your hunt is dependent on your familiarity with the area, the availability of your help, and your general hunt strategy.

### FINDING A MENTOR

One thing worth mentioning is that an experienced hunting mentor most likely won't back out of an offer to help. In fact, most mentors will be the first to admit they genuinely enjoy seeing you grow as a hunter and harvest your animal. A good mentor teaches you ethics, values and technique. A good mentor is priceless. If you're looking for a hunting mentor, reach out to someone you know or join a local chapter of a nonprofit group such as Backcountry Hunters & Anglers. More information is available at [backcountryhunters.org](http://backcountryhunters.org)

### HARVEST

Feeling humble, grateful, and in awe of such an incredibly strong and beautiful animal.

### GETTING THE MEAT OUT

We were fortunate enough to use pack mules to help pack the elk out, but by no means is it necessary to use pack animals. Bringing pack animals adds a logistical challenge. Physically conditioning the pack animals prior to the trip is important, as well as proper hoof care, nutrition and training. Certified weed free hay is required on public lands, have ample water available, and create a secure place to keep them.

### PROCESSING THE MEAT

It takes a fair amount of time to process the meat yourself, taking it to a professional meat processor costs money but saves on time. Learning to process the meat yourself is a great tool you can use for future hunts. You can learn to prepare and cook the meat by taking a wild game cooking course. NDOW partners with professional chefs to offer these courses throughout the state.

### MOUNTING

I European mounted the elk skull myself. Licensed taxidermists do a great job, but it was fun to create my own process and end up with a result that made me happy. I used word of mouth advice from other hunters on their experience and watched a couple videos online before beginning the process.

## PARTNERSHIP IN WILDLIFE (PIW)

(Refer to CR 19-07)

Partnership In Wildlife (PIW) is a voluntary and optional participation program that offers unique hunting opportunities for a few state-wide big game tags. A person with a PIW tag may hunt with an authorized weapon in any unit with an open season for the species listed on the tag during the season dates when that unit is open for that species and weapon class.

### APPLICATION INSTRUCTIONS

Applicants who are eligible and apply for hunts in the big game main draw can also apply for PIW hunts for antlered deer, antelope horns longer than ears, Nelson (desert) bighorn sheep ram, antlered elk, and California bighorn sheep ram. The PIW application fee is an additional \$10 for each species, which is deposited into the Wildlife Heritage Trust Account.

### FUNDS BENEFIT WILDLIFE HERITAGE TRUST

The funds raised through PIW applications are placed in the Wildlife Heritage Trust Account. Nevada statute allows 75% of the money deposited into this account and 100% of the interest earned on the account during the previous year to be used by the Department for the protection, propagation, restoration, translocation, introduction, and management of any game fish, bird, or mammal and the management and control of predatory wildlife in the state. The Nevada Board of Wildlife Commissioners is responsible for reviewing and approving expenditures from this account.

Every year a number of wildlife management projects are funded by the Wildlife Heritage Trust account. PIW promises to benefit Nevada's wildlife by providing financial support to the Wildlife Heritage Trust account and the sportsmen and women who support Nevada wildlife by providing additional, unique hunting opportunities that would not otherwise be available in the state.

The Board of Wildlife Commissioners designates the number of Wildlife Heritage game tags to be auctioned each year.

The successful bidder may hunt statewide during the 2019 season, except those areas closed to hunting in NAC 504.340 and units for Nelson (desert) bighorn sheep and California bighorn sheep where previous year's harvest previous year's harvest for Heritage occurred. ## NONRESIDENT GUIDED HUNT DEER TAGS

There are 101 licensed master guides in Nevada that provide guide services for big game, game birds, game fish and unprotected wildlife. Different hunters often desire to hire a guide for different reasons, ranging from a novice hunter who is a little uncomfortable with trekking into the remote Nevada outback, to an experienced hunter, who draws the tag of a lifetime, like a desert bighorn or bull elk tag.

When booking a guided hunt be sure that the master guide you hire is licensed to provide guide service in Nevada and be sure that you are provided with a contract before services are provided. If you are a nonresident of Nevada you may participate in the nonresident restricted guided deer draw, a program that allots a number of tags specifically for a guided deer hunt.

### RESTRICTED NONRESIDENT DEER TAGS: DEFINITIONS (NRS 502.146)

1. "Restricted nonresident deer hunt" means a deer hunt in which a restricted nonresident deer hunter hunts with a licensed master guide or licensed subguide.
2. "Restricted nonresident deer hunter" means a person who is not a resident of this State and is issued a restricted nonresident deer tag.
3. "Restricted nonresident deer tag" means a tag which is issued to a nonresident for a restricted nonresident deer hunt.

### RESTRICTED NONRESIDENT DEER TAGS: ISSUANCE (NRS 502.147)

1. The Department shall make available restricted nonresident deer tags in an amount not to exceed the amount set forth in this section. If the number of persons who apply for restricted nonresident deer tags is greater than the number of tags to be issued, the Department shall conduct a drawing to determine the persons to whom to issue the tags.

2. The number of restricted nonresident deer tags must:
  - (a) Be subtracted from the quota of rifle deer tags for nonresidents; and
  - (b) Not exceed 16 percent of the deer tags issued to nonresidents during the previous year or 400 tags, whichever is greater.
3. The number of restricted nonresident deer tags issued for any management area or unit must not exceed 37.5 percent, rounded to the nearest whole number, of the rifle deer tags issued to nonresidents during the previous year for that management area or unit.
4. The Department shall mail the tags to the successful applicants.

### RESTRICTED NONRESIDENT DEER TAGS: GUIDE TO ACCOMPANY HUNTER DURING HUNT (NRS 502.149)

A restricted nonresident deer hunter must be accompanied at all times during the restricted nonresident deer hunt by the licensed master guide who cosigned the application or one of his licensed subguides.

Bow includes longbow, compound bow or recurved bow. A crossbow cannot be used for archery only hunts.

### BOW CHARACTERISTICS

A bow must have a peak draw weight of at least 40 pounds and, if the bow is a compound bow, a let-off of not more than 80 percent.

"Let-off" means the amount of decrease in the draw weight of a compound bow from the peak draw weight to the holding draw weight after the bow has reached full draw.

### ARROWS

Legal hunting arrows must have a broadhead attached, be 24 inches in length from the end of the nock to the tip of the broadhead and have a 300 grain minimum weight. An arrow that is used in hunting any game mammal or

game bird may be equipped with a nock that is illuminated electronically or chemically.

### BROADHEADS

Fixed broadheads must be at least 7/8 inch wide at the widest point; mechanical heads must be at least 7/8 inch wide at the widest point when in the open position.

### SIGHTS

See "Sight Attached to Firearm, Bow or Crossbow" in this section.

- Carry a cocked crossbow containing an arrow or a bolt while in or on any motorized vehicle while the vehicle is on a public highway or other public right-of-way.

### ARCHERY DISABILITY PERMIT

A person with a permanent physical disability can now qualify for a permit that authorizes them to use a crossbow or a bow that uses a mechanical device that can anchor a nocked

arrow at full draw or partial full draw during an archery hunt.

As used for this permit, "permanent disability" means a disability which prohibits a person from manually drawing and holding a legal bow at full draw. Contact your local NDOW office for more information.

Crossbows may only be used for hunting big game during an "Any Legal Weapon" hunt. Crossbows are not allowed for archery hunts. (Refer to NAC 503.1465)

The sight/scope may not cast or project a visible beam of light (Refer to NAC 503.145). The Department may issue a scope permit to a person with a visual disability. The scope permit authorizes a person with a visual disability to hunt, during a type of hunt that is restricted to bows or muzzle-loading firearms, using a 1 x magnification rifle scope that is mounted on a bow or muzzle-loading firearm.

(Refer to NAC 503.146)

## USE OR POSSESSION OF FIREARM BY A CHILD UNDER 18 YEARS OLD

(Refer to NRS 202.257)

## CARRYING LOADED RIFLE OR SHOTGUN IN/ON VEHICLE

1. A rifle or shotgun is loaded when there is an unexpended cartridge or shell in the firing chamber.

## CHRONIC WASTING DISEASE

Please do your part to help keep Nevada free of Chronic Wasting Disease.

It is now illegal (2019 SB85) to bring a big game carcass into Nevada from another state unless it's been cleaned and is completely free of the spinal column and brain tissue.

Acceptable to transport: Meat, quarters with leg bones, skull-capped antlers and horns, capes and skins, taxidermy mounts, teeth. Intact skulls are allowed only if they've been boiled, beetle-stripped, or otherwise completely cleaned of brain tissue.

# CHRONIC WASTING DISEASE & HELPING TO PREVENT ITS SPREAD

By NDOW Veterinarian Dr. Peregrine “Peri” L. Wolff, DVM and NDOW Game Division Administrator Brian Wakeling

## NEVADA IS C.W.D. FREE– LET’S KEEP IT THAT WAY!

Currently found in 25 states and three Canadian provinces, chronic wasting disease (CWD) is a neurological disease that effects deer, elk and moose. The infectious agent is a misfolded protein, called a prion, that causes a spongy deterioration in the brain. Affected animals eventually can no longer eat or function normally and commonly succumb to pneumonia and other infections. Infected animals can spread CWD for years before they show symptoms. The disease is 100% fatal and currently there is no treatment or preventative vaccine. Adult animals tend to have a higher rate of infection, especially adult bucks and bulls. This disease can affect herd health and population size.

Beginning in 1998, the Nevada Department of Wildlife (NDOW) has conducted annual surveillance for CWD. To date, CWD has not been detected in Nevada, however, cases have been identified in eastern and central Utah. Nevada and Utah share migratory deer and elk herds; for these reasons, NDOW focuses annual surveillance efforts primarily in the eastern half of the state. Surveillance consists of collecting the brain stem and adjacent lymph nodes from hunter harvested adult deer and elk. We also collect samples from animals killed on the road or sick animals displaying symptoms consistent with CWD infection.

Over the past 20 years, deer and elk hunters have played a key role in our ability to test for CWD. Historically NDOW has used “biological check stations” set up on frequently travelled roads as an efficient method to collect samples from hunters. In 2018, we reinstated this practice where hunters can voluntarily stop and have their harvested animals sampled. Stations were set up on key hunting weekends in the Wells and Ely areas

One of NDOW's CWD check stations.

and allowed us to efficiently collect the samples needed. Heads for testing will also be accepted at regional NDOW offices and you may request that your taxidermist save the head from your mount for CWD testing.

## WHAT'S WITH THE CWD CHECK STATIONS?

- We're looking for biological samples only
- We collect the sample without damaging a cape
- It shouldn't take more than 10 minutes to collect the sample
- It's a great opportunity to share your hunt experience and talk with our biologists
- You may contact an NDOW office to coordinate a sample collection
- Your taxidermist can facilitate sample collection

## METHODS TO PREVENT THE SPREAD OF CWD TO NEVADA IF YOU HARVEST AN ANIMAL IN ANOTHER STATE

- State law (2019 SB85) now requires that when you harvest an animal from another state, you bring only processed or boned out meat (except for bones of the shoulder or the leg) back with you, and have skulls or the skull plate cleaned and free of any brain material before you return to Nevada.
- In some instances, other states require testing and you may be informed that you have harvested a CWD positive animal. If you are notified and choose to dispose of the meat, please call (775) 688-1529 for disposal methods and locations. Do not discard on the landscape because you might inadvertently introduce CWD in Nevada.

To learn more about chronic wasting disease go to the Nevada Department of Wildlife website [www.ndow.org](http://www.ndow.org) or the CWD Alliance <http://cwg-info.org>.

All returned tags received by the Department up to 14 business days before the opening day of the season will be issued to the first eligible Alternate.

(Refer to NAC 502.421 and 502.422)

## UNLAWFUL POSSESSION OF WILDLIFE WITHOUT ATTACHED TAG; UNLAWFUL REMOVAL OF TAG

1. Whenever tags are required for any species of wildlife, it is unlawful to have any of that species in possession without the tag attached thereto and such possession without an attached tag is prima facie evidence that the game is illegally taken and possessed.
2. It is unlawful to remove any tag from any wildlife for reuse or to be in possession of excess tags or used tags.

(Refer to NRS 502.150)

## USE OF TAG OR PERMIT

1. The tag must be carried by the OWNER at all times while s/he is hunting or trapping.
2. The tag CANNOT be carried by another regardless of age.
3. No one other than the tag holder may use the tag.
4. The tag must be used in the management area or unit(s) that is listed on the tag.
5. The tag can only be used during the dates on the tag.

(Refer to NAC 502.385)

## VALIDATION OF TAG OR PERMIT

When a person reaches any wildlife which the person has killed, he or she must validate his or her tag or permit immediately by clearly notching out the spaces necessary to properly identify the physical description of the animal, including its sex and antler points, where appropriate, and the day and month of the kill.

(Refer to NAC 502.390)

## TAG OR PERMIT MUST BE ATTACHED TO ANIMAL

1. The tag must be firmly attached to the carcass on the animal killed by him, at or before the time he reaches his means of transportation or camp, whichever comes first.
2. The tag must remain with the major portion of the meat until it is consumed.
3. Mountain lions, bears and furbearing mammals need to have the tag or permit attached to the hide or pelt until it is processed.

(Refer to NAC 502.400)

## BLACK BEAR TAGS

1. A hunter, or their licensed guide if applicable, must call the bear hotline at 1-800-800-1667 prior to hunting to determine if the season has closed.

2. If a black bear tag holder is successful in harvesting a black bear the tag holder must:
  - (a) Within 24 hours after harvesting the black bear, call the department at 1-800-800-1667 to report the harvest.
  - (b) Within 72 hours after harvesting the black bear, **PERSONALLY** present the skull and hide to a representative of the Department for inspection.
3. A tag holder CANNOT kill a female black bear that is accompanied by a black bear cub or kill a black bear cub. (Cub means a "black bear cub" which is less than 1 year of age or less than 50 pounds).
4. If a bear is trapped or accidentally killed, within 48 hours of trapping or killing the black bear, the person needs to report the trapping or killing to a representative of the Department.

(Refer to NAC 502.373)

## BIGHORN SHEEP TAGS

1. You may obtain a ram or ewe tag in one or more of the three subspecies of bighorn sheep:
  - (a) Nelson bighorn sheep;
  - (b) California bighorn sheep; or
  - (c) Rocky Mountain bighorn sheep
2. A tag holder who kills a bighorn sheep, regardless of subspecies or gender, shall personally present the skull and horns of the animal to a representative of the Department for inspection within 5 days of the kill.
3. Rams will have a seal placed in the horn. You cannot possess or sell ram horns without the seal affixed to the horn.
4. A ewe is any female bighorn sheep that has a horn or horns that are at least 5 inches in length, on the outside from skull to tip.

(Refer to NAC 502.345).

## MOUNTAIN GOAT TAGS

(Refer to NAC 502.364)

## PRESENTATION OF WILDLIFE, CALCULATION OF DAYS

Saturday, Sunday and state holidays do not count in computation of days for presenting the animal for inspection/sealing.

(Refer to NAC 502.411)

## DEMERITS AND LICENSE REVOCATIONS

Hunting, fishing and trapping license privileges are revoked when a person accumulates 12 demerit points within a 60-month period. When a person is convicted of a wildlife violation, a certain number of demerits are assessed for that crime. The more serious the crime, the greater the number of demerits that are assessed.

Demerit-based revocations may last up to three years. Under some circumstances a person's tag privileges may be revoked for up to 10 years. (Refer to NRS 501.105, 501.181, 501.1818, NAC 501.200 and NAC 501.210)

## CRIMINAL PENALTY PROVISIONS

Can be prosecuted as a **FELONY** for a person who intentionally kills or aids and abet another person to kill a bighorn sheep, mountain goat, elk, deer, pronghorn antelope, mountain lion or black bear if you:

1. Hunt outside the prescribed season;
2. Use an aircraft or helicopter;
3. Use a method other than what is listed on the tag;
4. Outside the prescribed time;
5. Without a valid tag;
6. Use a tag of another;
7. Outside the prescribed unit(s); or
8. The tag was obtained by a false or fraudulent representation.

Exceptions:

1. The killing of the animal is necessary to protect the life or property of any person in imminent danger of being attacked by the animal; or
2. The animal killed was not the intended target of the person who killed the animal if you notify the Department as soon as possible about the accidental kill.

If you know or should have known an above animal was killed unlawfully and you possess said animal it is a **GROSS MISDEMEANOR OFFENSE**. (Refer to NRS 501.376)

## UNLAWFUL ACTS; CRIMINAL PENALTIES

Except as otherwise provided by specific statute:

1. Any person who:
  - (a) Performs an act or attempts to perform an act made unlawful or prohibited by a provision of this title;
  - (b) Willfully fails to perform an act required of him by a provision of this title;
  - (c) Obstructs, hinders, delays or otherwise interferes with any officer, employee or agent of the Department in the performance of any duty while enforcing

## COMMON VIOLATIONS

The vast majority of hunters, trappers and anglers do their best to abide by the wildlife laws and regulations. For those people who fail to follow the law, convictions of wildlife law may carry serious penalties, including criminal fines up to \$5,000, jail, civil penalties up to \$30,000, loss of equipment and lost license privileges.

The following are a list of the eight most common violations in the field. Check twice, take due care, and you can avoid unnecessary citations, costly fines and loss of equipment and hunting privileges.

**If you make a mistake** — for example shooting a spike, or small forked-horn deer instead of an antlerless deer — report it immediately to the local game warden or *Operation Game Thief (OGT)* at 1-800-992-3030. Follow any instructions that are provided to you and wait for the warden to arrive. Taking the opposite approach, such as hiding or wasting game, will carry much more serious consequences.

### 1. Hunting Outside Unit Area Designated on Tag

Double-check the hunt area/unit designated on your tag, and review the boundary unit descriptions on the reverse of the Department's Big Game Boundary Unit Reference Map. Purchase detailed reference maps. Know where you are. **This is a misdemeanor offense, but if an animal is killed, it can escalate to a felony.**

### 2. Loaded Rifle or Shotgun In/On Vehicle

Nevada law prohibits carrying loaded rifles and shotguns in or on vehicles, including ATVs, motorcycles, snowmobiles, etc. After hunting on foot, unload the gun before placing it in or on the vehicle. **This is a misdemeanor offense.**

- or attempting to enforce any provision of this title;
  - (d) Violates any order issued or regulation adopted by the Commission under the provisions of this title; or
  - (e) Having been granted a privilege or been licensed or permitted to do any act under the provisions of this title, exercises the grant, license or permit in a manner other than as specified, is guilty of a misdemeanor. An officer, employee or agent of the Department may not obtain or attempt to obtain biological samples of wildlife, hunting, fishing or trapping data, or any other biological data or information relating to wildlife on private property without the consent of the owner of the property.
2. Every person who is guilty of a misdemeanor under this title shall be punished by a fine of not less than \$50 nor more than \$500, or by imprisonment in county jail for not more than 6 months, or by both fine and imprisonment. (Refer to NRS 501.385)

## FORFEITURES

Any gun, ammunition, trap, snare, vessel, vehicle, aircraft or other device or equipment used, or intended for use:

1. To facilitate the unlawful and intentional killing or possession of any big game mammal; or
2. To hunt or kill a big game mammal by using information obtained as a result of the commission of an act prohibited by NRS 503.010 or a regulation of the Commission which prohibits the location of big game mammals for the purpose of hunting or killing by the use of:
  - (a) An aircraft, including, without limitation, any device that is used for navigation of, or flight in, the air;
  - (b) A hot air balloon or any other device that is lighter than air; or
  - (c) A satellite or any other device that orbits the earth and is equipped to produce images, or other similar devices; or
3. Knowingly transport, sell, receive, acquire or purchase any big game mammal which is unlawfully killed or possessed, is subject to forfeiture pursuant to NRS179.1156 to 179.119 inclusive.

(Refer to NRS 501.3857)

### 3. Using Tag of Another

This is a surprisingly common violation. Only the person named on the tag may use or possess the tag. **This violation is considered a felony offense if an animal is harvested.**

### 4. License and Tag Fraud

Providing false information (for example, claiming to be a Nevada resident, using a false date of birth, or fictitious name, etc.) to obtain a license is a **misdemeanor**. Providing false information to obtain a big game tag is a **gross misdemeanor**, and killing a big game mammal with such a tag is a **felony**. This activity steals tags from lawful sportsmen.

### 5. Early/Late Shooting

Do not shoot at game before or after the designated legal hunting hours. Check the sunset/sunrise and hunts by species table. Sunset does not mean dark! **This is a misdemeanor offense. (Refer to sunrise/sunset tables at the back of this book.)**

### 6. Failure to Properly Notch Tag or Permit Immediately After Taking Game

Upon reaching game, **immediately** validate (punch) the tag or permit with a knife or other sharp object. Marking it with a pencil or pen is not acceptable. **This is a misdemeanor**

**offense.** If a tag is used to kill more than one animal, the crime is punishable as a **category E felony** and all equipment used in the crime is subject to forfeiture, including guns and vehicles.

### 7. Possessing an Over Limit of a Species

Possession limit is the maximum number of a species that one person can legally take and control at any one time—this includes animals held in the freezer and ice chest. Daily limit is the maximum number of a species that is allowed to be harvested in any given day.

### 8. Unplugged Shotgun

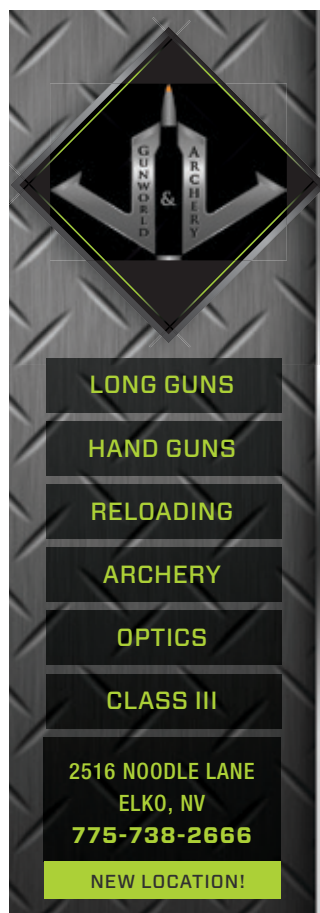

Waterfowl and dove hunters may not use shotguns capable of holding more than three shells. Shotguns must be plugged and rendered incapable of holding more than three shells. Shotguns must also be plugged in all Wildlife Management Areas regardless of species. **This is a misdemeanor offense.**

## CIVIL PENALTIES

In addition to the criminal penalties, every person who unlawfully kills or possesses wildlife is liable for civil penalties:

- a TROPHY big game mammal – \$5000-\$30,000
- big game mammal, bobcat, swan or eagle – \$250-\$5000
- fish or wildlife not included above – \$25-\$1000
- hunting, fishing or trapping without a valid license, tag or permit – not less than \$50

Failure to pay a penalty within 90 days may result in license suspension or revocation and denial of privileges.  
(Refer to NRS 501.3855)

The State of Nevada through the Department of Wildlife owns or has long-term leases on more than 155,000 acres of land incorporated into wildlife management areas (WMAs) across the state. The primary management emphasis on WMAs is the protection of wetlands and waterfowl including the use of the areas as public hunting grounds. Hunting opportunities for sportsmen on WMAs include migratory game bird, upland game bird, furbearer and big game hunting. Below is a table of restrictions associated with each of the wildlife management areas. ## ILLEGAL OUTDOOR MARIJUANA

The past year has shown an increase in illegal outdoor marijuana grow gardens in the Nevada outback. Sportsmen should be aware of their surroundings while utilizing the outdoors. If you observe remote camp sites/ irrigation equipment/marijuana plants leave the area immediately.

Note the location of suspicious activity and contact law enforcement officials. Game wardens work in conjunction with other law enforcement agencies when these grow gardens are found to apprehend the growers, eradicate the plants and rehabilitate the damaged environment.

Operation Game Thief 1-800-992-3030  
or DPS 1-866-2REPORT.

## BLM INFORMATION

The Bureau of Land Management (BLM) in Nevada encourages hunters to call in advance of hunting season to find out if land management practices will be conducted during the hunting season. While BLM field offices are aware of hunting seasons, some management activities, such as prescribed burns, wild horse gathers, road closures or fire restrictions may temporarily disrupt hunting activities.

### Call Before You Hunt

If possible, call the appropriate BLM office before you send in your hunt area requests. That way you may avoid an area that may have some access restrictions or other changes because of management activities. It's a good idea to call BLM just before the hunt to find out if any unplanned restrictions from fire or emergency wild horse gathers are in effect.

### Responsible Hunting in Wilderness and Wilderness Study Areas (WSAs)

Some units contain BLM lands designated as wilderness or wilderness study areas. Motor vehicle use—trucks, ATVs and motorcycles—is not allowed unless signs are placed to indicate a designated route. The motorized vehicle rule extends to mechanized vehicles such as game carriers, which are also not allowed in these areas. Hand-held GPS units are allowed.

### Responsible Off-Highway Vehicle Use

There has been a big increase in the use of OHVs by hunters. While most areas of the public lands are designated as open to OHV use, cross-country travel on OHVs is causing unnecessary damage to habitat that wildlife depend on. OHV riders are asked to stay on existing roads and trails. If it is necessary to drive off roads to retrieve and pack out harvested game, hunters are asked to use care and avoid creating new routes.

The following authorized NDOW license agents listed below have been issued a supply of transportation permits. Please call the one closest to your hunting area to verify that they still have a supply on hand before you go in. Transportation permits are also available at all NDOW offices statewide (see page 4). Transportation permit regulations can be found on pages 38.

## INFORMATION RESOURCES

### Elk Incentive Tags

Special elk incentive tags are awarded to landowner applicants as an incentive to support an increase in the elk populations in Nevada. Any owner, lessee or manager of private land who wishes to participate in the program may enter into an agreement with the Department that specifies how the landowner will support increases in the local elk herds, and provides that the landowner will agree to provide reasonable public access to adjacent public lands.

Landowners or hunters who are interested in the elk incentive tag program may contact the Nevada Department of Wildlife Headquarters at (775) 688-1507 for more information.

### Landowner Damage Compensation Tags

An owner, lessee or manager of private land in this state may apply to the Department for the issuance of deer or antelope tags for compensation for damage caused by these animals.

These tags can be used by the owner, lessee or manager if he holds a valid Nevada hunting license or the tag(s) can be sold to any holder of a valid Nevada Hunting license at any price mutually agreed upon. Any landowner, lessee or manager of private land or any hunter wanting more information on this program should call (775) 688-1507. Please visit the "Incentive and Compensation Maps" page on the NDOW website ([ndow.org](http://ndow.org)) for more information.

### Weed-Free Hay

The National Forest System requires weed-free hay on all National Forest Systems lands within the state of Nevada. A list of weed-free hay producers and vendors is available on the Nevada Department of Agriculture's website at: <http://agri.nv.gov>. Click on the "noxious weeds" section under the "plant" heading.

## HOW TO USE THESE TABLES

Many Nevada hunting regulations restrict the activities to specific times. The laws and regulations may specify sunrise to sunset, one half hour before sunrise to sunset, one hour before sunrise to two hours before sunset, etc.

Consult the specific regulation pamphlet for the activity you are interested in. These are available at all NDOW offices and most license agents. Then use the sunrise/sunset table for the location nearest to your hunt to determine the legally authorized time to start and/or stop your activity. These tables are accurate in the vicinity specified with less than a two (2) minute error. **These tables are Pacific Standard Time, so do not forget to add one hour for daylight savings time from March 10 - November 3.**

**Please Note:** A more complete listing of sunrise/sunset tables is available at [www.ndow.org](http://www.ndow.org).
